Education

- 2016.4–present **PhD (expected)**, *Arithmetic Geometry*, Berlin Mathematical School (BMS), Freie Universität, Berlin, Germany.
BMS Phase II study. My Thesis topic is “Higgs-de Rham bundles on abelian varieties in positive characteristic”. Supervisors: Prof. Hélène Esnault and Dr. Michael Gröchenig.
- 2013.10–2016.12 **M. Sc.**, *Mathematics*, BMS (2013.10–2014.3 Humboldt Universität zu Berlin, 2015.4–2016.10, Freie Universität), Berlin, Germany.
BMS Phase I study completed in October 2015 with a grade of 1.3 (very good). Master’s degree obtained in December 2016 with a grade of 1.3 (very good). My Master thesis is titled “Intersection of a Correspondence with a Graph of Frobenius”. Supervisors: Prof. Hélène Esnault.
- 2009.8–2013.7 **B. Sc.**, *Mathematics*, Xi’an Jiaotong University (XJTU), Xi’an, China.

Conferences and Schools

- 2017.10 **Autumn school: Topics in arithmetic and algebraic geometry**, *Johannes Gutenberg-Universität Mainz*, Mainz, Germany.
- 2017.8 **Motives for periods**, *Freie Universität Berlin*, Berlin, Germany.
- 2017.7 **Higgs Bundles, K3 Surfaces and Moduli**, *Humboldt Universität zu Berlin*, Berlin, Germany.
- 2016.9 **School on Higgs Bundles and Fundamental Groups of Algebraic Varieties**, *Universität Duisburg-Essen, Campus Essen*, Essen, Germany.
- 2016.6 **Shimura Varieties**, *Leiden University*, Leiden, Netherlands.
- 2015.7 **AMS Summer Institute in Algebraic Geometry**, *University of Utah*, Salt Lake City, Utah, USA.
- 2013.2–2013.6 **Enhanced Program for Graduate Study**, *Peking University*, Beijing, China.
- 2010.6–2010.8 **Research Experience for Undergraduate Students**, *The University of Iowa*, Iowa City, IA, USA.

Honors & Awards

- 2016–present **BMS Phase II Scholarship**, BMS, Berlin, Germany.
- 2013–2015 **BMS Phase I Scholarship**, BMS, Berlin, Germany.
- 2011.3 **Meritorious Winner**, *Mathematical Contest in Modeling (MCM)*, the Consortium for Mathematics and Its Applications (COMAP).

Languages

- Chinese Native speaker
- English Fluent
- French Only be able to read mathematical literatures.
